

## ECCO 90 HE

### Portal turnstile with bars, 90° separation

Especially well suited for outdoor access points in building access control, at sports facilities and for parking garage entrances with high demands on mechanical load capacity.

- High traffic separation
- Architecture-friendly transparency
- Easy assembly and installation
- Vandal-proof
- Single or bidirectional operation
- Reversible entry direction
- High quality and long service life
- Integrated LOGITURN control unit
- Maintenance-free mechanism
- Traffic counter

## Functional Description:

The Ecco 90 HE motorized full-height vertical turnstile with stainless steel drum, barrier grate, guides and feet is especially well suited for outdoor plant access control as well as for stadiums, recreation facilities and garage-to-building transitions.

Its compact size and transparent design mean that the Ecco 90 HE can be easily integrated in fence installations.

The Ecco 90 HE is suitable for single or bidirectional operation and its 90° division means high traffic separation.

A galvanized version is available as an economical alternative.
