VARIO 2100 D

Representation with optional lane dividers item no. 2V187

Vertical turnstile, full height, 90° separation

Especially well suited for high-traffic, unattended indoor and outdoor entry and exit points in pools and recreation facilities and in architecturally sensitive buildings.

- Small installation size, maximum security
- Silent running
- LOGITURN controls
- Bidirectional operation
- High traffic capacity
- Long service life
- Transparent design complements any architecture
- Saltwater version available
- Integrated control unit
- Maintenance-free mechanism
- Extensive range of accessories

Functional Description:

The motorized, full-height Vario 2100D double vertical turnstile is made entirely of rustproof materials and is especially well suited for use at unmonitored access points in pools and recreation facilities.

The drive and controls are located on top and thus protected from ground moisture.

Vario 2100D is part of a product line that covers the full range of requirements of swimming pools and similar facilities with single and double turnstiles at different heights, motorized swing gates and a wide assortment of accessories.

The Vario 2100D can be used for single or bidirectional operation and is available in saltwater-resistant construction.

Application Areas:

- Pools & Recreation
- Building Access Control
- Supply Facilities
- Events & Stadiums

Technical Characteristics:
